

# SAINT KENTIGERN

29 March 2023

Dear Parents & Caregivers

## **Nanogirl: STEM in Schools presentation**

Saint Kentigern College's Science Department is pleased to confirm that as part of their Science program, all Year 7 students will be attending a Nanogirl: STEM in Schools presentation.

This event will take place from 9:30am to 10:30am on Tuesday 4 April 2023, in the Goodfellow Centre.

Nanogirl has received much positive publicity, primarily due to the Science in Schools drive which promotes interest and capabilities in STEM subjects. The shows are interactive and engaging, and they are presented by specialist scientists using relevant content. More information is available on the [NanoLab](#) website.

The cost for this experience is \$8 per student. This cost will be charged to your College Account, unless you wish your child to not to participate. You may indicate if you would like your child to **opt out** by emailing me with the student's name and class before 9:00am on Monday 3 April.

My contact details are [Catherine.may@saintkentigern.com](mailto:Catherine.may@saintkentigern.com) if you have any concerns.

Yours sincerely

Ms Catherine May  
**Head of STEM Science: Year 7-9**

Mr. Gerard Hodgson  
**Head of Faculty: Science**
