

Week 5 – Workouts

Warm Up

- Every day to warm up pattern 3 to 5 exercises from the list below, try to mix upper and lower body exercises. Go through in a circuit style fashion performing 6 repetitions on each exercise. Go through the circuit as many times as you need to until you feel warm and ready to move onto the workout of the day.
- You can still use these warmups if you are doing a cardio workout, or you can start the first 5 minutes of your session at a slower pace. For example, if you are going for a 20-minute run, start off with a 5-minute walk.

BEAR WALK

WALKING LIZARD LUNGE

PRONE THORACIC MOBILIZATION

BOOK STRETCH

INCH WORMS

COSSACK SQUAT

2 STEP HAMSTRING STRETCH

CRAB WALK

LEG SWINGS

SCORPIONS

Full Body Workouts

- Pick 2 or 3 exercises from each of the photos below to create a full body workout, or you can complete 1 workout per day, spread out across the week.
- Using your weekly planner, pick one of the workouts below and follow the instructions
- You can complete each exercise individually or go through as a circuit, completing every exercise once, resting then completing the next round.

Home Workout 5

HIIT Workouts (high intensity interval training).

- Using your weekly planner, pick one of the workouts below and follow the instructions

Hit Workout 4

- Complete the exercise for either of these options
 - A. Work for 15 seconds then rest for 15 seconds before changing exercise
 - B. Work 15 seconds then rest for 10seconds before changing exercise
 - C. Or follow the instructions on the picture
- Rotate through as a circuit
- Rest for 2 to 3 minutes after all exercises
- Complete 3 to 5 rounds based on your fitness level

Time for Something New

After 4 weeks of training and trying to improve your time, now try a new form of cardio and start from the beginning. So, during the last block, if you ran now try biking, if you walked try jogging. Be creative, maybe try rounds of skipping if you have access to the skipping rope, mainly just try something new.

Cardio Workouts (Long Distance Steady State Cardio).

- Pick one of the options below, based upon your access to equipment, also you can use the program considerations to progress your cardio programming week by week, or session by session

Cardio Workout Options

- Choose to either run, Jog or walk at a continues steady state for a starting time of 20 minutes.
 - A. Please see the example layout sheet to see how you can progress your cardio fitness training
- If you have access to a bike, stationary bike or rowing machine, pick one and go at a continues steady state for a starting time of 20 minutes, 30 minutes if on a stationary piece of equipment.
 - A. Please see the example layout sheet to see how you can progress your cardio fitness training
- Skipping challenge, if you have access to a skipping rope: start
 - A. with 2-minute rounds with a 1-minute break, do as many rounds as you can to build to 15 to 20 minutes total skipping time.
 - B. Please see the example layout sheet to see how you can progress your skipping. For example, you could increase your skipping round time, or you could decrease your resting time
 - C. If you access to a boxing bag you could also progress your rounds the same way

Warm Down

- Everyday go through one of these basic stretching routines, pick 1 from below. Go through in a circuit style fashion and follow as below.
 - A. Performing each stretch for a 10 to 20 second hold.
 - B. Then relax for another 10 seconds
 - C. Then go deeper into the stretch for another 10 to 20 second hold.
- Go through the circuit as many times as you need to until you feel warm and ready to move onto the workout of the day.

20 SEC EACH | 3 SETS | UP TO 2 MIN REST BETWEEN SETS
